(c) The following steps are taken by the State Pollution Control Board under the provisions of the Water Act, 1974, to reduce the pollution:

1. Standards for effluents have been laid down.

2. Regular water quality monitoring in the rivers is being carried out.

3. The industries have been given a time bound programme to set up effluent treatment plants.

4. Legal action is taken against the defaulting units.

5. New industrial siting is reviewed critically.
